**NUTRITION THEY NEED  
FLAVOUR THEY LOVE**

WHO WE ARE

# WELCOME TO ACANA™

**ACANA goes above and beyond in crafting our cat food**, including sourcing high quality animal proteins like fresh or raw\* poultry, meats, wild-caught fish. Our recipes are also balanced with fresh vegetables, fruits and botanicals to help your cat live a full and healthy life.

*Protein-rich  
Quality animal ingredients*

Ingredient example from ACANA Wild Prairie Cat. Animal protein sources depicted in fresh form before processing. Proportions and quantities not representative of contents of one package or serving. Cuts may vary. See ingredient list.  
\*Our fresh ingredients use refrigeration as the sole method of preservation. Our raw ingredients are frozen at the peak of freshness to preserve nutrients.

# WHAT IS ACANA™ ?

## ACANA'S QUALITY *ingredients for cats :*

**We're dedicated to making quality ACANA cat food from start to finish with the best ingredients.**

Our foods are crafted with fresh or raw\* quality animal ingredients balanced with whole fresh fruits and vegetables to help support your cat's full and healthy life as a happy member of your family.

**We're Transparent About Our Ingredients**  
**With ACANA cat food**, we're proud of the fact that we source only quality ingredients from our trusted suppliers, in recipes we control from start to finish. By providing high inclusions of animal protein balanced with fresh fruits, vegetables and botanicals, our ACANA cat food is as nourishing as it is satisfying.

\*Our fresh ingredients use refrigeration as the sole method of preservation. Our raw ingredients are frozen at the peak of freshness to preserve nutrients.

**NO ARTIFICIAL COLOURS,  
FLAVOURS OR PRESERVATIVES  
ADDED IN OUR KITCHEN**

# WHAT IS ACANA™ ?

*Farm-fresh*  
**FRUIT  
& VEGETABLES**

## **MADE WITH FRESH OR RAW INGREDIENTS**

**FRESH:** Our fresh ingredients use refrigeration as the sole method of preservation.

**RAW:** Our raw ingredients are frozen at the peak of freshness to preserve nutrients.

## **EVERY ACANA™ CAT RECIPE**

*includes :*

- At least **65%\*** quality animal ingredients
- Recipes balanced with **fresh vegetables, fruit, botanicals & nutrients**
- **Added vitamins and minerals**, natural preservatives and probiotics
- A delicious variety of recipes and a range of options **to suit every cat**

\*Approximate and derived from the unprocessed state of the ingredients.

## **OUR RECIPES**

*never include :*

- Artificial flavours, colours, or preservatives added in our kitchens.
- **No soy, corn, tapioca** or wheat ingredients added in our kitchens.

Ingredient example from ACANA Wild Prairie Cat. Animal protein sources depicted in fresh form before processing. Proportions and quantities not representative of contents of one package or serving. Cuts may vary. See ingredient list.

# ACANA™ TRANSITIONING

**Cats are often fed the same food for a long period of time, which means a sudden food change makes it difficult for their digestive systems to adapt.**

That's why it's important to introduce new food gradually. Going slowly will give your cat time to adjust to their new food and will also reduce the chances of digestive upset. Start by mixing 25 percent new food with 75 percent old food. Slowly increase the new food proportionately over the next 5-7 days until you are feeding 100 percent new food.

## ROTATIONAL DIET

**Keep things exciting at mealtime by rotating the ACANA recipes you feed your cat.** This will allow your best friend to enjoy a variety of animal proteins in delicious and nourishing new flavours. Don't transition too abruptly, though — start by replacing 25% of the old food with the new recipe and gradually increase the amount over time. Kitten are recommended to remain on *kitten diet*.
