

Our Typical analysis includes Guaranteed Analysis information as well as typical nutrient information for vitamins, minerals, and amino acids. The information included in the typical analysis is compiled using lab analysis of our recipes and diets. A typical analysis does not contain absolute values, however it is useful for determining if a specific recipe is suitable for your pets needs. If you or your veterinarian need additional information please reach out. WWW.ACANA.COM

1 cup = 114 g of food

EVERY CAT IS DIFFERENT.

Just like you, your cat is a unique individual, so feeding amounts will vary. Use this chart as an initial guide; monitor your cat's weight and adjust portions accordingly. Feed twice daily and always provide fresh, clean water.

ACANA™ Homestead Harvest formulated to meet the nutritional levels established by FEDIAF for Adult Maintenance. Store in a cool, dry place. Not fit for human consumption.
